Quality Formulations, Quality Lives

WHO WE ARE

- Our Journey started with the aspiration for providing Quality and Affordable Lifecare through Application, Innovation and the Integration of the resources.

- We have evolved from the modest start to emerge as a strong and the established player in the market with more than 10 years standing as an hard core Finished Formulations manufacturing player.

- We have scaled up to developing 173 key Finished Formulations. key Finished Formulations through our consistent efforts which has helped us to achieve a sizable business volume catering our products to all the leading companies in India and overseas, virtual manufactured at various sites while in another couple of years, we plan to develop and commercialize another new molecules.

- Expanding in the manufacturing capacities and capabilities will be the key Growth-Driver for us and the strategic capital investment into our manufacturing facilities at Paithan-Aurangabad is going to help us further in strengthening our journey towards operation excellence and which shall significantly contribute towards increasing the sales turnover, top line and subsequently the bottom line.

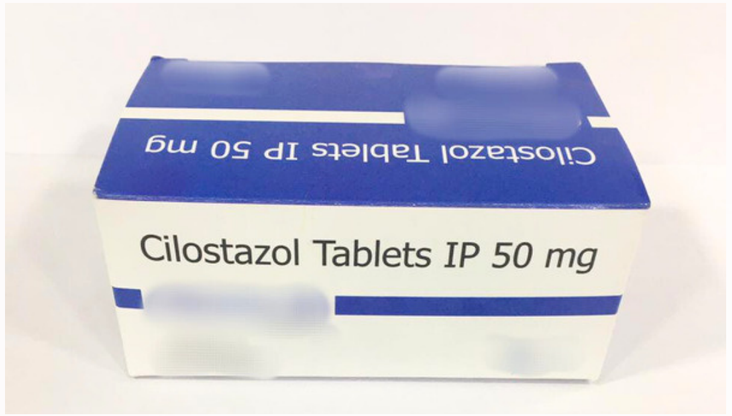
We are Specialized In:

- DERMATOLOGY
- CARDIOLOGY
- DIABETOLOGY
- GYNECOLOGY
- CNS
- ORTHOPEDICS/ PAIN MANAGEMENT
- IRON REPLACEMENT
- ANTI-ALLERGY/ RESPIRATORY
- GASTRO INTESTINAL TRACK
- HEPATOLOGY
- UROLOGY/NEPHROLOGY
- ANTIBIOTICS
- ANTI PARASITIC

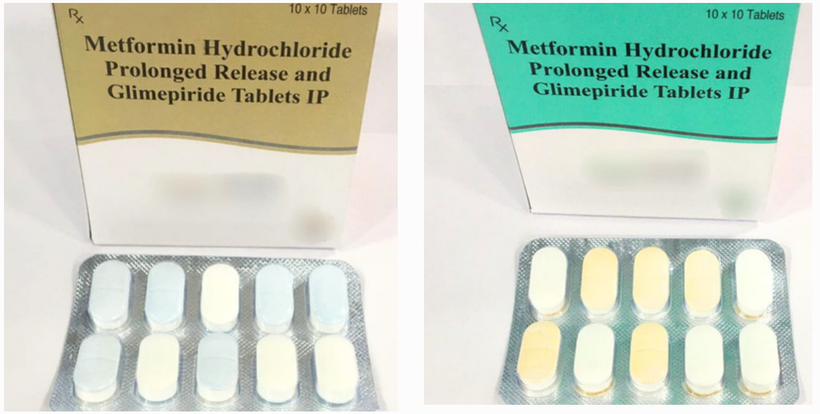
Some of Our Products

Linagliptine Tablets

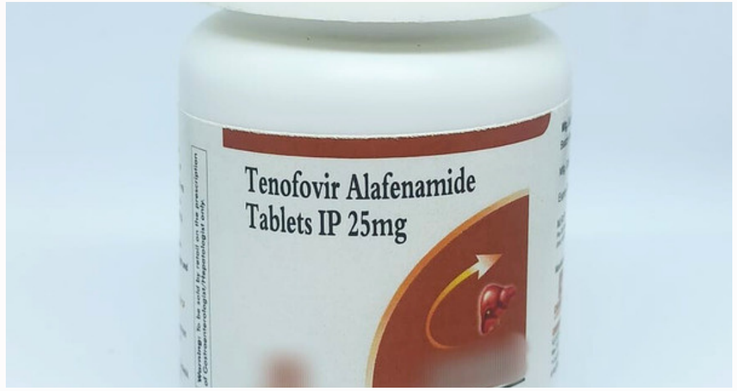
Cilostazole Tablets



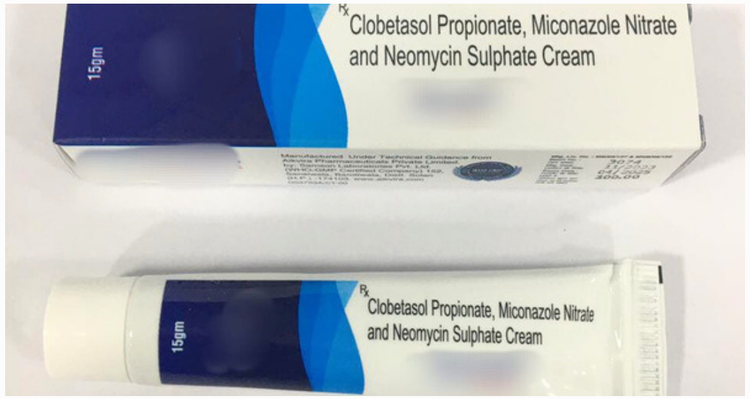
Glimepiride with Metformin Tablets



Tenofovir Alafenamide Tablets



Clopidogrel propionate, Miconazole Nitrate, Neomycin sulphate Cream



Pregabalin, Nortriptyline, HCl & Methylcobalamin Tablets

Formulation & Development:

- Aikvira Pharma can help you develop quality finished dosage forms. Our pharmaceutical experts start by understanding your needs and constraints and then work through appropriate pre-formulation assessment to design potential formulations (and processes) that will deliver the high-quality, robust finished drug product you need.

- Our Formulation & Development laboratories are equipped with pilot size rapid mix grinder, fluid bed dryer, compression machine and different instruments such as HPLC, UV Visible spectrophotometers, FTIR, dissolution and disintegration test apparatus etc. for test and analysis of new formulations. A formulation & development laboratories harbor stability chambers for stability test and analysis of finished formulations.

- Our key objective of F &D initiative is to match pace with modern development on solid oral dosages and development of new drug formulations for existing products. We have the expertise, and a proven track record, to formulate a wide range of finished pharmaceutical products, such as:

✓ **Oral solids & liquids**

✓ **Liquid Injections**

✓ **Topical Ointment , Creams & Lotions**

Best Practices followed by us:

- Maintain complete **API records.**
- Perform appropriate testing to assure conformance to specifications.
- Assure that each chemical step is problem-free before moving to the next step.
- Maintain thorough, complete data from laboratory tests and also include any failed attempts.
- Ensure that all equipment is reliably cleaned.
- Investigate critical deviations adequately.
- Document each step diligently and thoroughly as required by regulators.
- Have all measurement instruments on-site as now required by regulatory bodies.
- Maintain frequent and open communication between the CDMO and sponsor teams – this is critically important.
